

BE PREPARED (COVID-19)

PLAN AHEAD

There are simple, practical things you can do to prepare in case you or someone in your household becomes ill or if COVID-19 becomes common in your community.

MAKE A PLAN THAT INCLUDES:

- ▶ **Essential supplies** (a few weeks' worth) on hand so you will not need to leave your home if you become ill.
 - Avoid panic buying. Add a few extra items to your cart every time you shop. This places less of a burden on suppliers, and can help ease financial burden on you as well.
 - Renew and refill your prescription medications.
- ▶ **Alternative arrangements** in case you become ill or if you need to care for a sick family member. For example:
 - Have backup childcare in case you or your usual care provider become ill.
 - If you care for dependents, have a backup caregiver in place.
 - Talk to your employer about working from home if possible.
- ▶ **Reducing your exposure** to crowded places through physical distancing if COVID-19 becomes common in your community. For example:
 - Shop and use public transit during off-peak hours
 - Exercise outdoors instead of in an indoor fitness club
 - Some people may transmit COVID-19 even though they do not show any symptoms. Wearing a **mask**, including a **non-medical mask or face covering** (i.e. made with at least two layers of tightly woven fabric, **constructed** to completely cover the nose and mouth without gaping, and secured to the head by ties or ear loops) can help protect others around you.

COMMUNICATE

- ▶ Share your plan with your family, friends and neighbours.
- ▶ Set up a buddy system to check in on each other by phone, email or text during times of need.

STAY INFORMED

- ▶ Learn about the **symptoms** of COVID-19, how it spreads and how to prevent illness.
- ▶ Get your information from reliable sources such as the Public Health Agency of Canada, and provincial, territorial and municipal public health authorities.
- ▶ If the news media is making you feel anxious, take a break from it.

SHOPPING LIST

FOOD

- dried pasta and rice
- pasta sauces
- canned soups, vegetables and beans
- pet food

HYGIENE

- toilet paper
- feminine hygiene products
- diapers
- facial tissue
- soap
- alcohol-based hand sanitizer** containing at least 60% alcohol

HEALTH CARE

- thermometer
- fever-reducing medications (acetaminophen or ibuprofen for adults and children)

CLEANING

- paper towels
- plastic garbage bags
- dish soap
- laundry detergent
- regular household cleaning products
- hard-surface disinfectant, or if not available, concentrated (5%) liquid bleach and a separate container for dilution
