HELP REDUCE THE SPREAD OF COVID-19

TAKE STEPS TO REDUCE THE SPREAD OF THE CORONAVIRUS DISEASE (COVID-19):

- follow the advice of your local public health authority
- wash your hands often with soap and water for at least 20 seconds
- use an alcohol-based hand sanitizer containing at least 60% alcohol if soap and water are not available
- try not to touch your eyes, nose or mouth
- avoid close contact with people who are sick and practice physical distancing
- cough and sneeze into your sleeve and not your hands
- stay home as much as possible and if you need to leave the house practice physical distancing (approximately 2 m)

SYMPTOMS

Symptoms of COVID-19 can:
- take up to 14 days to appear after exposure to the virus
- be very mild or more serious
- vary from person to person

IF YOU HAVE SYMPTOMS

- Isolate at home to avoid spreading illness to others.
- Avoid visits with older adults, or those with medical conditions. They are at higher risk of developing serious illness.
- Call ahead before you visit a health care professional or call your local public health authority.
- If your symptoms get worse, contact your health care provider or public health authority right away and follow their instructions.
