

Science Officer, Clean Energy and Infrastructure

Salary ranging from \$88,533 to \$105,353

Isolated post allowance (Northern living allowance) ranging from \$19,000 to \$31,000

Who we are

Polar Knowledge Canada is responsible for advancing Canada's knowledge of the Arctic and strengthening Canadian leadership in polar science and technology. We operate the Canadian High Arctic Research Station, a state-of-the-art scientific research facility located in the beautiful Hamlet of Cambridge Bay, Nunavut. For more information about our organization, visit us at canada.ca/polar, and for information about Cambridge Bay visit cambridgebay.ca.

Who we're looking for

As a Science Officer with Polar Knowledge Canada, you will be responsible for overseeing and implementing applied research projects in the areas of clean energy and northern infrastructure, as well as form working relationships with local governments, indigenous partners, and academic organizations. In this role you should be comfortable managing projects related to innovative energy and developing infrastructure solutions for the Arctic.

Perks of the job

- We offer flexible working arrangements and schedules that suit your lifestyle
- You will have access to relocation assistance and crown housing in Cambridge Bay
- We provide vacation travel allowance for you and your dependents
- You will receive ongoing training and mentorship opportunities
- As a government employee, you will have access to the Public Service Health Care Plan – for information visit pshcp.ca

How to apply

Simply send us an e-mail explaining how you meet the following qualifications and a copy of your resume at recruitment-recrutement@polar-polaire.gc.ca:

- Experience developing and managing projects
- Experience providing technical advice or guidance
- Experience leading and mentoring multi-disciplinary science or technical teams
- Experience working with stakeholders
- Although there is a preference for a candidate with a degree from a recognized post-secondary institution with specialization in engineering, biology, geology, chemistry, physics, or other technical field, applicants without a degree may be considered with experience in these areas

Other information

- As a government employer in Nunavut, we give priority to Inuit applicants ahead of other qualified applicants as part of the Nunavut Agreement.
- If you have any questions or need special accommodations to apply for this job, please contact Korrina Harvey at (867) 983-7425 extension 7070.
