## CHAPTER 1

### COMMAND, CONTROL AND STAFF DUTIES

#### COMMAND

1. All Canadian Armed Forces (CAF) members shall wear the uniforms prescribed by the Chief of the Defence Staff (CDS), in accordance with QR&O 17.01.
2. This publication, issued under CDS authority, details CAF dress and personal appearance policy, authorized dress items and the method of wearing all uniforms and accoutrements.
3. Changes in dress policy, dress instructions or uniforms, or in the designs of uniforms, uniform accessories, accoutrements or insignia, shall only be made with the approval of the CDS or, on his behalf, by the Chief Military Personnel, National Defence Headquarters (NDHQ/CMP).
4. The CDS and CMP are advised by:
  - a. the environmental Commanders of the Royal Canadian Navy, Canadian Army, Royal Canadian Air Force and Canadian Special Operations Forces Command who are the principal advisers on Navy, Army, Air Force and Special Operations Forces distinctive environmental uniforms (DEU);
  - b. the National Defence Clothing and Dress Committee (NDCDC), which provides the focal point for coordinating the views of all environments and organizations, and approves routine changes within established policy (see paragraphs 11. to 14.); and
  - c. personnel branch advisers, who submit routine comments through the NDCDC.
5. In accordance with these instructions the Commanders of Commands are delegated authority to establish rules for the design and wear of their respective operational orders of dress. See Chapter 5, Annex D, paragraph 2.
6. Commanders at all levels shall ensure that personnel under their command, whether environmentally or extra-environmentally employed, are dressed in accordance with these instructions.

#### CONTROL

7. Control is exercised by local commanders who may standardize the dress of subordinates on any occasion, including the wear of accoutrements and alternative or optional items, subject to overall command direction. See also Chapter 2, Section 1, paragraph 44.
8. High standards of dress, deportment, and grooming are universally recognized as marks of a well-trained, disciplined and professional force. Commanders shall maintain the standards at all times to reinforce these characteristics for peace or war. Unauthorized modification of dress demonstrates inefficient and undisciplined training and a failure of those in command to focus on the purpose of a uniformed armed force. See also Chapter 2, Section 1, paragraphs 2. to 4; and Chapter 2, paragraph 5, and section 3 on religious and spiritual accommodation.
9. Officers cannot delegate their leadership responsibilities. They are assisted by warrant and non-commissioned officers, who control standards and compliance by all of their subordinates (see also A-DH-201-000/PT-000, CAF Manual of Drill and Ceremonial, Chapter 1, Section 1, paragraph 12 and Chapter 7, Section 1, paragraph 3).

#### NATIONAL DEFENCE CLOTHING AND DRESS COMMITTEE (NDCDC)

10. NDCDC provides:
  - a. the focal point for all Department of National Defence (DND) non-operational clothing and dress matters, including rules and regulations, administrative, procedural and traditional aspects, and the coordination of design and development;
  - b. an overview of operational clothing issues to ensure that there are no conflicts before such items are forwarded to the Programme Management Board;
  - c. advice and recommendations to senior management on clothing and dress matters, including clothing allowance; and

- d. decisions within established departmental policy on clothing and dress matters which require resolution at departmental level.
11. NDCDC is composed of the following Chair, members and advisers:
- |                    |   |
|--------------------|---|
| Chair              | Assistant CMP   |
| Members            | CPO1 of the Navy<br>Army Sergeant-Major<br>CWO of the Air Force<br>CMP<br>CWO   |
| Permanent Advisers | Director History and Heritage<br>Director Soldier Systems Programme Management<br>Canadian Forces Chief Warrant Officer |
12. The Secretary is provided by DHH.
13. Submissions and recommendations on clothing and dress matters, including proposed changes to these Dress Instructions, shall be formally presented to the Committee through the normal chain of command. Proposals shall be staffed, through the appropriate Branch Adviser as necessary, to the commander of the appropriate environmental Command, then to NDHQ/DHH for secretarial, committee or higher approval. See also Chapter 2, Section 1, paragraph 25.

#### **WORDS AND PHRASES – HOW CONSTRUED**

17. “Shall”, “may”, and “should”
  - a. “shall” shall be construed as being imperative;
  - b. “may” shall be construed as being permissive; and
  - c. “should” shall be construed as being informative only.
18. “Practicable” and “practical”
  - a. “practicable” shall be construed as “physically possible”; and
  - b. “practical” shall be construed as “reasonable in the circumstances”.
19. “On duty”. As a general rule, for purposes of dress and appearance, a member is considered to be on duty:
  - a. when actively engaged in operations, training or administrative duties, either in accordance with specific orders or in accordance with established military routine or practice;
  - b. when attending a course or administrative function, either in accordance with specific orders or established routine or practice;
  - c. when participating in or attending any sport, recreational, social or other activity where military authorities require her/him to be there; or
  - d. when he/she is at a specific place, or doing a specific act, because of a military order.

**CHAPTER 2**  
**POLICY AND APPEARANCE**  
**SECTION 1**  
**DRESS POLICY**

**AUTHORIZED UNIFORMS**

1. The uniforms, accoutrements, accessories, insignia, optional items and orders of dress set out in these instructions are those authorized for wear by all ranks of the CAF, pursuant to QR&O 17.01. See Chapter 1, paragraph 1.
2. A military force's uniform is an outward symbol of its commitment, identity and ethos. Coupled with overall appearance, the uniform is the most powerful visual expression of pride by the individual service member, and is the primary means by which the public image of the CAF is fashioned.
3. CAF uniforms identify all personnel as members of a cohesive, armed body in the service of Canada.
4. When a uniform is required to be worn, all CAF members shall wear the applicable uniform described in this manual in accordance with the instructions contained herein.
5. Approval of new or modified dress items or orders shall recognize the need to provide protection and comfort over a wide range of climatic conditions, and support the complete spectrum of activity from ceremonial duties to strenuous labour. Items and orders shall be designed for wear by the total CAF population, though inherent and customary differences between men and women shall be given appropriate consideration in detailed design and tailoring.

**GROUP AND INDIVIDUAL IDENTITY**

6. Dress policy recognizes both the military requirement and the individual need to identify. A spectrum of identity exists which includes: country, environment, branch, corps, regiment, unit, and military occupation. The emphasis placed on each differs in accordance with custom. Symbols of primary identity are a military requirement and, therefore, should be provided at no cost to the individual.
7. The CAF identity system reinforces the chain of command, and strengthens organizational morale, cohesion and operational effectiveness.
8. Overlaying the organizational system is one for personal identity, i.e. identifiers which indicate personal qualification, experience, and "family" memberships. These include environment, branch or corps, occupation, and flying and specialist skill badges; rank insignia; decorations and medal.
9. CAF members are allocated environmental identity and uniformed according to the functional branch to which they belong, with each branch manned by individuals from one or more environments. In addition, Reserve members of a branch identified with more than one environment are allocated an identity on initial enrolment which:
  - a. for the Primary Reserve, matches that of their unit, i.e. Navy in the Naval Reserve; Army in the Army Reserve; Air Force in the Air Reserve, unless the initial unit's assignment is in the functional Navy or Air Force; and
  - b. for direct entry Supplementary Reservists, matches that of their initial assignment or is in accordance with instructions by the Branch Adviser.

### NOTE

10. Once assigned, environmental identity is normally retained for a career. Thus, while the majority of members in environmental commands and units are uniformed alike, some differ, reflecting the unified nature of the CAF.
11. Four uniforms or uniform categories are worn in common by all CAF members, whatever their personal environmental identity:
  - a. full dress (No. 1B order), worn only by RMCC officer cadets and members of certain Army and Air Force organizations (see Chapter 6);
  - b. tropical tan service dress (No. 3D order, see Chapter 5, Annex C);
  - c. operational dress (see Chapter 5, Annex D); and
  - d. occupational dress items (see Chapter 7).
12. For cultural reasons, special dress practices apply to the following specific groups:
  - a. **Bands.** Each musical band is allocated both an environmental and branch/corps/regimental identity, and the appropriate DEU is worn by all. See Chapter 5, Section 2.
  - b. **Cadet Instructor Cadre (CIC).** CIC officers are allocated an environmental identity which matches that of their cadet corps/squadrons.
  - c. **Canadian Rangers.** Canadian Rangers, who are members of the Reserve, have no environmental identity or uniforms beyond basic identification as part of our military force.
  - d. **Women.** Women may wear:
    - (1) skirts, blouses, and other gender-specific items as described elsewhere in this manual, unless otherwise ordered; and
    - (2) if required by the tenets of their religion (see Section 3, paragraph 1.):
      - (a) long trousers, long skirts and long-sleeved shirts when skirts, shorts, or short-sleeved items are otherwise prescribed; and
      - (b) an environmentally-coloured hijab, covering the hair, and tucked into the shirt collar.
  - e. **Aboriginal and Visible Minorities.** Additional guidance for all members concerning religious and spiritual accommodation are included in sections 2 and 3.

### CATEGORIES AND ORDERS OF DRESS

13. Categories and orders of dress and their occasions of wear are listed in Annex A to this chapter.
14. Detailed instruction on the design and composition of orders of dress is in:
  - a. Chapter 5 for ceremonial, service and operational orders of dress issued to and worn by all CAF members; and
  - b. Chapter 6 for full dress and undress uniforms;
  - c. Chapter 7 for occupational dress items.

15. Only service dress is designed for unrestricted wear on all occasions. With jacket and tie (No. 3 duty order), it equates to a civilian business suit. With medals and accoutrements (Nos. 1 and 1A orders), it is formal attire suitable for all ceremonial occasions.

## SEASONAL AND CLIMATIC DRESS

16. Non-operational dress items are designed for and are worn during the year-round temperate climatic conditions experienced in static locations throughout Canada. Specifically:

- a. environmentally-coloured service dress and its ceremonial derivatives may be worn in all seasons;
- b. Navy ceremonial and service dress includes alternative white clothing items worn during the summer or in tropical climates. Details are in Chapters 5 and 6;
- c. Army and Air Force service dress is not differentiated by season;
- d. Army white undress jackets (optional and alternative Nos. 1C and 1D orders) are only worn during the summer or in tropical climates. Details are in Chapter 6; and
- e. white mess dress jackets (No. 2A summer mess dress) are only worn during the summer or in tropical climates. Waistcoats are not worn during the summer unless otherwise ordered.

- b. Air Force personnel - intermediate jacket, NSN 8415-21-910-8219 and cold weather parka, NSN 8415-21-910-8195.

These are the sole instances where operational clothing may be worn with the No. 3 orders of dress. The optional Service Dress Parka and topcoat (gabardine) are authorized for winter outer wear when in service dress.

18. Changes into summer and winter dress shall be ordered by commanders of commands and NDHQ group principals for all subordinates within Canada and its territorial waters. Overseas commanders may conform to local circumstances.

19. When authorized, special tropical clothing shall be issued to all personnel upon posting or deployment to a tropical or hot climate location. Special tropical orders of dress include:

- a. No. 3D tropical tan service dress; and
- b. No. 5D tropical shipboard, operational dress.

## SERVICE DRESS

20. **Provision.** All ranks shall be provided with Service Dress to the authorized entitlement. See also paragraphs 32. to 34.

- a. Issue may be phased for due economy to match initial training and employment requirements.
- b. Army Reserve non-commissioned members (NCMs) shall not be issued Service Dress until one of the following conditions has been met:
  - (1) The member is MOSID qualified.

- (2) The member has completed one calendar year of service.
- (3) The member has transferred from another CAF component and MOSID, and has previously met one of the conditions stated above.

21. **Responsibility.** Personnel shall have their issued items of Service Dress available and maintained for use at all times. Members are personally responsible for the care and custody of all items of uniform clothing, accessories, and accoutrements issued to them.

22. **Major Components.** Major components of uniform, such as trousers and jackets, shall not be interchanged or mixed and shall only be worn with the uniform and order for which they are intended. Some accoutrements and clothing items, i.e. shoes, socks, waist belts, raincoats, topcoats (gabardines), gloves and short-sleeved shirts may, however, be worn with various categories and orders of dress as described in these instructions.

23. **Maintenance.** Maintenance and/or replacement of Service Dress for the Regular/Reserve Force shall be in accordance with the policies for Clothing On Line. There is a Tier system that designates points allocations to CAF members in accordance with their employment UIC. After enrolment, members will get access to their points once their online profile has been created at clothing stores. If the member has not yet completed one year of service, points will be prorated according to the number of months of service completed. Also, within one year of the member's initial order of Service Dress, the member can exchange items of Service Dress at clothing stores, without using points, as long as the exchange is required due to body measurement changes, or fair wear and tear.

#### OPTIONAL ITEMS

24. Certain clothing items, insignia and accoutrements, or variations thereof, may be authorized for optional wear, so long as they are obtained:

- a. without obligation on the part of individual members; and
- b. at no expense to the public, unless supplied exclusively through the CAF Consolidate Clothing Contract (Clothing on Line).

25. To obtain approval of optional items:

26. Members can only be ordered to wear those optional items which are issued or loaned from a non-public distribution account under the control of a commanding officer. Accordingly, optional items which may be required for parades or other purposes, such as ceremonial accoutrements or full dress uniforms, should be brought onto charge according to regulations.

#### SEALED PATTERNS AND SPECIFICATIONS

27. To ensure uniformity and quality of dress, all CAF clothing items, whether issued through the CAF Supply System or purchased from civilian tailors, shall be made according to the approved master sealed patterns which govern the official specifications for each uniform. The necessary specifications may be obtained from National Defence Headquarters, Director Soldier Systems Programme Management (DSSPM), through the CAF Supply System.

28. CAF personnel shall not wear any item of dress which does not conform to the approved sealed patterns for the item concerned. A commanding officer is forbidden to introduce or sanction for experimental or other purposes any unauthorized deviation from the sealed pattern of clothing, equipment and badges, and shall be responsible for the cost of replacing or restoring to the approved pattern any articles worn in the unit that may be found not in conformity therewith.
29. The approved pattern of optional items may be either:
- a. sealed for design and technical specifications, if the item is to be procured and stocked by the supply system – this is only done if the demand for the item is wide-spread and continuous; or
  - b. sealed for design only if the item is to be procured and stocked under command or branch/corps/regimental arrangements, such as through CANEX, kit shop, or by individual purchase directly from a manufacturer or tailor. In this case, approval includes delegated authority to the command or branch/corps/regiment concerned for technical specifications beyond the design itself.

### ALTERATIONS AND MODIFICATIONS

30. CAF items of clothing shall not be altered or modified, except to obtain a reasonable fit, for religious accommodation, or to convert service dress jackets to doublets as authorized in Chapter 5.

### NEW AND SUPERSEDED ITEMS

31. Whenever an item of dress in a new pattern is authorized and introduced, an amendment to these instructions shall be issued by NDHQ/DHH, advising the conditions under which the superseded or obsolescent items may continue to be worn and the procedure for taking the new item into use.

### SUPPLY AND ISSUE

32. Supply and issue of the various orders of CAF uniforms shall be in accordance with CFS-2 Material Authorization – Scales of Issue, Volume 2, and A-LM-007-014/AG-001, Canadian Forces Supply Manual.
33. CFS-2 also outlines the scales of issue of operational, environmental, specialist and occupational clothing provided and maintained at public expense. CAF personnel requiring this type of clothing shall determine their entitlement by reference to CFS-2, or by contacting their unit or base supply section.
34. Supplemental non-operational clothing scales shall not be approved for any personnel, except tropical tan service dress (No. 3D order). Individual clothing items for tropical service dress and for all operational clothing are issued in the quantities needed for the mission or activity concerned. Relevant training scales and operation or administration orders contain details.

They will be identified by wearing on the uniform an appropriately marked brassard or armband. See Figure 2-1-1. When CAF operational clothing is provided to civilians who accompany CAF units in operational or field conditions, issuing units must ensure that any badges, to which the civilian member is not entitled, are removed from the operational clothing. Such action will minimize the possibility that the individual will be mistaken for a member of the CAF.

42. **Former Members.** A former CAF member released from the Regular or Reserve Force, other than by reasons of misconduct, may seek permission to wear a uniform on specific occasions as specified in QR&O 17.06. If permission is granted, they shall wear the uniforms and insignia which applied when they last served.

## SECTION 2 APPEARANCE

### DEPARTMENT

1. **Responsibilities.** Pursuant to QR&O 17.02, the deportment and appearance of all ranks, in uniform or when wearing civilian attire, shall on all occasions reflect credit on the CAF and the individual. It is the responsibility and duty of all officers, warrant officers and non-commissioned officers to ensure that, by their vigilance, actions and example, the policies, regulations and instructions contained herein are adhered to by all ranks.
2. **Behaviour.** Personnel in uniform shall comport themselves in a manner which projects a positive military appearance. Behaviour such as chewing gum, slouching, placing hands in pockets, smoking or eating on the street and walking hand in hand, is forbidden. This instruction's objective is to project an image of a disciplined and self-controlled force.
3. **Military Presence.** Personnel in uniform shall be well groomed, with footwear cleaned and shone, and uniform cleaned and properly pressed. In particular, buttons, fasteners and zippers shall be kept closed; pockets shall not be bulged; items such as glasses, glass cases, sunglasses, pens, pencils, key rings or paper shall not be visibly extended nor protrude from pockets or be suspended from waist belts or pockets; personal cell phones that are conservative in appearance may be worn; headphones shall not be worn; ear buds may be worn when travelling on public transit only. CAF personnel wearing civilian clothes on military installations and in military groups or settings shall dress and comport themselves at all times as befits members of a disciplined, cohesive force.

### HAIR

4. Hair on the head shall be neatly groomed and conservatively styled. The length, bulk or style of hair shall not detract from a positive military appearance or preclude the proper wear of military headdress. (Bulk is the distance that the mass of hair extends from the skin, when groomed, as opposed to the length of hair.) In particular, style and colour shall not present a bizarre, exaggerated, or unusual appearance. Unusual colours, such as green, bright red, orange, purple, etc., are not permitted. Hair must be secured or styled back to reveal the face, and any accessories used to secure or control hair styles shall be as unobtrusive as possible. Hair ornaments shall not be worn, except women's conservative barrettes which blend with the hair colour. Shaving of all of the hair on the head is permitted. The personal manner of wearing hair within these general style limits, including moustaches, beards and braids, shall be modified to the degree necessary to accommodate operational or occupational equipment, such as gas, oxygen and scuba masks, hard, combat and flying helmets, etc., where a member's safety or mission is put in jeopardy.
5. The following additional details apply to specific groups to accord with religious and spiritual practices and public perceptions of a disciplined force:
  - a. **Men** (see Figure 2-2-1). Hair shall be taper-trimmed at the back, sides, and above the ears to blend with the hair-style; be no more than 15 cm in length and sufficiently short that, when the hair is groomed and headdress is removed, no hair shall touch the ears or fall below the top of the eyebrows; be no more than 4 cm in bulk at the top of the head, gradually decreasing to blend with the taper-trimmed sides and back; and be kept free from the neck to a distance of 2.5 cm above the shirt collar. Taper trimmed square back styles and shaving of all the hair on the head are permitted.
    - (1) **Sideburns.** Sideburns shall not extend below a line horizontally bisecting the ear, and shall be squared off horizontally at the bottom edge and taper-trimmed to conform to the overall hair style.
    - (2) **Moustaches** (see Figure 2-2-2). When moustaches are worn alone, the unshaven portion of the face shall not extend outwards beyond the corners of the mouth. Moustaches shall be kept neatly trimmed; not be greater than 2 cm in bulk; not extend below the corners of the mouth, not protrude beyond the width of the face when fully extended horizontally and worn in a waxed, handlebar style.

(3) **Beards** (see Figure 2-2-2)

- (a) Subject to procedures established by commanders of commands, permission to wear a beard shall only be granted to all ranks who wear the naval uniform, wherever serving; all ranks on strength of an infantry pioneer platoon; adherents of the Sikh religion (see Section 3); and personnel, on the direction of a medical officer, subject to medical reassessment at intervals not exceeding six months. Other personnel shall shave off their beards.
- (b) Where beards are authorized, they shall be worn with a moustache; kept neatly trimmed, especially on the lower neck and cheekbones; and not exceed 2.5 cm in bulk.
- (c) Directives pertaining to the trimming of beards at Para 3(b) above and as illustrated in Figure 2-2-2 apply solely to members authorized to wear beards for other than medical reasons. Members with medical chits are to follow the direction of their medical chits and if excused shaving will not shave the lower neck and/or cheekbones. Unit will strictly enforce the requirement to monitor ongoing cases at no less than 6 month intervals.
- (d) When a beard is grown or removed, identification documents shall be replaced in accordance with security regulations.

- b. **Women** (see Figure 2-2-3). Hair shall not extend below the lower edge of the shirt collar. Exaggerated styles, including those with excessive fullness or extreme height, are not authorized. Braids, if worn, shall be styled conservatively and tied tightly: secured at the end by a knot or a small unadorned fastener. A second small unadorned fastener may be used to secure the top of the braid. A single braid shall be worn in the centre of the back. Double braids shall be worn behind the shoulders. Hair shall be a maximum length when gathered behind the head and braided which does not extend below the top of the armpit. Multiple braids (cornrows) shall be directed toward the back of the head, pulled tight to the head and secured at the end by a knot or a small-unadorned fastener. A second small unadorned fastener may be used to secure the top of the braid. Multiple braids extending below the lower edge of the collar are to be gathered in a bun. With the permission of a Commanding Officer, a reasonable period may be authorized in order to transition from short to long hairstyles, during which time hair may extend below the lower edge of the shirt collar; all the while maintaining a positive military appearance, and subject to the member's safety.

**NOTE**

Appearance on ceremonial parade in accordance with Figure 2-2-3; straight hairstyles will be gathered in a bun. This is also applicable for the cornrows.

- c. **Aboriginal Members.** Aboriginal CAF members whose spirituality embraces the wearing of hair braids and who have been granted permission in writing at the unit level shall be authorized to adopt traditional Aboriginal hairstyles. Although the member is not required to self-identify through the CAF Self-ID Census, the member must declare their Aboriginal spiritual requirement as either status or non-status First Nations, Inuit, or Métis in writing to their Commanding Officer and this declaration will be kept as Protected B on the member's personnel file. As long as there is no safety or operational concerns, a Commanding Officer will grant permission to the member and have it recorded on the member's original requesting memorandum. Upon posting to a new unit, the Aboriginal CAF member must re-see permission from his new chain of command, as operational or safety concerns may have changed. For the transition from short to long hairstyle, hair shall not extend below the lower edge of the shirt collar and shall be styled neatly. Long hair that does extend below the lower edge of the shirt collar, and is not long enough to be braided, shall be gathered behind the head with a small unadorned fastener of a colour that blends in with the hair. As soon as the hair is long enough, braids shall be styled conservatively and tied tightly; secured at the end by a knot or a small, unadorned fastener. A second small unadorned fastener may be used to secure the top of the braid. A single braid shall be worn in the centre of the back and double braids shall be worn behind the shoulder, which does not extend below the top of the armpit.

Specific descriptions of hairstyles may change based on spiritual requirements of various Aboriginal groups. If Aboriginal CAF members request permission to grow their hair outside of the previously described policy, they must request specific accommodation through the CAF's Interim Policy on Religious Accommodation and CANFORGEN 162/12. Advice on this policy and declarations of appropriate spiritual practices may be obtained from the Directorate of Human Rights and Diversity (DHRD) or local/regional Defence Aboriginal Advisory Group (DAAG) Co-Chairs. Ultimately, the CAF encourages its Aboriginal people to embrace their culture and spiritual beliefs while proudly serving in the military.

Safety regulations should always prevail, especially in workshops, warehouses or during operations.

Visible and non-visible body piercing adornments, with the exception of women's earrings and ear sleepers described in sub-paragraph 6.a., shall not be worn by members either in uniform or on duty in civilian clothing. The meaning of the term "on duty", for purposes of dress and appearance, is interpreted in Chapter 1, paragraph 20.

## SECTION 3

### RELIGIOUS AND SPIRITUAL ACCOMMODATION

#### RELIGIOUS SENSITIVITY

1. The different religious and spiritual requirements of various groups should be respected, especially during moments of religious expression. If conflict arises, the CAF is guided by differentiating between the tenets of devout faith, which shall be allowed if militarily practicable, and the religious and spiritual practices of a particular group, which may be accommodated as practical. The desires of members who choose not to have religious affiliation should also be respected. In the extreme, advice may be obtained through the chain of command from the Base/Wing Chaplain, NDHQ/Chaplain General and NDHQ/Directorate Human Rights and Diversity (DHRD) See also Section 1, subparagraphs 12.d. and e. and Section 2, subparagraph 5.c.
2. Religious items or accessories (e.g., a Christian Cross) which are not visible or otherwise apparent are unregulated and may always be worn provided they do not interfere with the proper wear and use of uniform items, accoutrements, or equipment.

#### WEAR OF HEADDRESS

3. **Introduction.** The wearing of headdress on different occasions reflects a combination of the cultural etiquette of formal Canadian society, military custom, and religious practices. As a guideline, the norms of formal etiquette should be followed. Further guidelines for common situations are given in the paragraphs that follow. These highlight the differences between those whose customs require removing headdress as a sign of respect, especially by males in religious circumstances (the North American and European Christian norm); and those who cover the head as a sign of religious respect (Jews and others under varying circumstances). Similar requests to retain headdress may also apply to members who choose not to have religious affiliation. In addition:
  - a. A member of the Jewish faith may wear a black, plain-pattern yarmulke with Ceremonial, Mess, Service, and Naval Combat orders of dress, and a CADPAT TW, or CADPAT AR yarmulke with those operational orders of dress, whenever he / she removes other headdress.
  - b. Special details for adherents of the Sikh religion are contained in paragraphs 14. to 21. of this section.
  - c. Special details for adherents of the Muslim religion are contained in paragraph 22. of this section.
  - d. Special details for adherents of the Aboriginal spiritual are contained in paragraph 25. of this section.
4. **Military Funerals.** Headdress shall be removed by the bearer party which includes bearer commander (excluding those participating in a Jewish service or when indicated by other religious practices) during the periods that the casket is being carried.
5. **Attestation.** Recruits shall not wear headdress (unless required for religious or spiritual reasons) when being paraded before the attesting officer. The attesting officer and the escort shall wear headdress and shall remove it (unless required for religious or spiritual reasons) during the administration of the Oath of Allegiance or the Solemn Affirmation. Following the administration of the Oath of Allegiance or the Solemn Affirmation, the persons who remove headdress shall replace it.
6. **Summary Trial.** The headdress of an accused member shall be removed (unless required for religious or spiritual reasons) prior to a summary trial, along with any articles that could be used as projectiles. Prior to the administration of oaths, all members present shall be ordered to remove headdress (unless required for religious or spiritual reasons). On completion of the administration of oaths, members present who removed their headdress, other than the accused, shall be ordered to replace headdress.
7. **Courts Martial.** Headdress shall be worn or removed in accordance with the etiquette of the court. See A-LG-007-000/AG-001, Court Martial Procedures. Guide for Participants and Members of the Public. When so indicated by their religious practice (e.g., Sikh), CAF Members need not remove headdress during the administration of the oath. Civilian male witnesses (including civilian police) shall not wear headdress in court, except for adherents of faiths for whom it is not permitted or acceptable to remove headdress (e.g., Jewish or Sikh).
8. **Consecrated Buildings.** All ranks shall observe the custom of the religious denomination concerned, in regard to the wearing of headdress in a consecrated building, except that headdress shall be worn when on duty as a member of the vigil during the lying in state of a deceased dignitary, or as a member of a colour party when depositing or receiving Colours. For Christian churches, headdress is removed at the church entrance

(less headdress of female service personnel if that is the custom of the denomination concerned), and replaced at the exit. The advice of the officiating clergy will be sought and followed in each case.

9. **Messes and Canteens.** Personnel who avail themselves of the privileges offered by a mess or canteen shall remove headdress on entering the premises. Except for mess and canteen staff, those entering for the purpose of performing a duty or an inspection, or those entering for the purpose of maintaining or enforcing discipline or when indicated by other religious practice (e.g., Sikh), need not normally remove headdress.

10. **Non-Service Buildings.** Headdress shall not normally be removed in any public place, including elevators. However, personnel may observe the custom practised by civilians in regard to the wearing of headdress in non-service buildings such as restaurants, theatres and civil courts. When on duty under arms as an escort in a civil court, headdress shall not be removed.

11. **Public Transportation.** Personnel travelling aboard a local public conveyance may remove their headdress. Personnel travelling extended distances by aircraft, bus or rail, may remove their headdress while in transit, however, headdress shall be replaced prior to exiting the public conveyance, vehicle or aircraft.

Sentries in the vicinity may be authorized to retain normal headdress on parade when others remove theirs to avoid drill complications. When ordered in connection with a religious event, it is optional for members to remove or retain their headdress.

14. A CAF member who is an adherent of the Sikh religion (Keshadharis) shall wear CAF pattern uniforms and adhere to standard CAF dress policy and instructions, with the following exceptions:

- b. In addition to uncut hair, four other symbolic requirements of the Sikh religion are authorized for wear by both male and female members (see paragraph 16), with all orders of dress. Should a conflict arise between the requirements to wear safety or operational items of clothing and equipment and these religious symbols, the manner and location of wearing these symbols shall be adjusted. Unit commanders retain the right to order the manner of this adjustment as necessary to meet valid safety and operational requirements.
- c. A turban shall be worn by members with ceremonial, mess, service dress. Turbans shall also be worn with occupational and operational dress, subject to the safety and operational considerations noted

The distinguishing cyphers and badges shall not be worn by CAF members after they cease to hold the personal appointments.

11. **Her Majesty The Queen.** The shoulder device is a Royal Cypher surmounted by the Crown, both of gilt metal. Two sizes of the Royal Cypher have been approved as follows:

The device has left and right shoulder patterns (the lions to face forward), its dimensions being 30 mm square, and is worn at the base of the shoulder strap on the service dress jacket. See also paragraph 18., and for comparison, the details of appointment insignia for the Governor General as Commander-in-Chief in Section 2, paragraph 1.
  - b. **Lieutenant-Governors.** The shoulder device for the Honorary Aides-de-Camp to a Lieutenant-Governor is the shield of the Provincial Arms surmounted by the Crown, normally produced in metal. For method of wear, see paragraph 17.
16. **Acquisition.** The approved cyphers and badges are not a service issue. They are obtained from the Royal or vice-regal household. Officers appointed to serve Royal or vice-royal personages may correspond directly with the appropriate military or private secretary on these matters. If required, advice on addresses can be obtained from NDHQ/DHH. Commercial suppliers may also be able to provide cyphers, however, this could be both expensive and result in an incorrect design. The Royal's personal staff normally ensure quality control.
17. **Method of Wear**
  - a. Officers below flag/general officer rank shall wear cloth shoulder-straps on ceremonial, service and mess dress jackets, on which the cyphers and badges are authorized to be worn. On jackets which are not normally equipped with shoulder-straps, plain shoulder-straps of the pattern worn by general officers, less badges of rank, shall be felled onto both shoulders, at the shoulder seams, and shall be fastened at the collar ends by means of 26-ligne buttons. Cyphers and badges shall then be centred on both straps, 2 cm above the shoulder seam or just above a metal shoulder title. When worn on the shoulder straps of officers of flag/general rank, cyphers and badges shall be placed at the bottom of the strap, below the lowest maple leaf, evenly and centrally displayed, with the bottom of the cypher or badge being even with the bottom edge of the strap.
  - b. When worn on the shoulder-straps/boards of army Nos. 2 and 2A mess orders of dress, and on slip-ons worn on the shoulder-straps of navy, army and air force topcoats (gabardines), raincoats and short-sleeved shirts, the bottom edge of the cypher or badge shall be centred and even with the lower edge of the lowest row of rank braid. If difficulties are encountered in fitting the cypher on the shoulder strap/board obtained from the household or commercial supplier, the matter may be referred to NDHQ/DHH for tailoring assistance.
  - c. When worn on gold plaited shoulder cords, cyphers and badges shall be evenly and centrally displayed with the bottom of the cypher or badge as close to the bottom edge of the shoulder cord as possible.

## CHAPTER 4

### ORDERS, DECORATIONS, MEDALS AND OTHER HONOURS

#### POLICY

1. Authorized honours (orders, decorations, medals, and the insignia for mentions-in-dispatches, commendations and citations) may be worn, when appropriate, by entitled personnel. Where doubt exists on entitlement, the Command concerned shall refer the matter to NDHQ/DH&R for clarification. No officer or non-commissioned member shall carry or wear an order, decoration or medal while engaged in operations against the enemy.
2. Orders, decorations and medals may be worn with ceremonial and mess dress orders. See Chapter 2, Annex A, and Chapter 5. Guidance on selecting honours for wear should follow the principles in sub-paragraphs 8.a. (1) and (2) and sub-paragraph 9.a.
3. Undress ribbons and related insignia are worn on lesser dress orders as detailed in paragraph 12. and Chapter 5.
4. Honours are not worn on military outerwear, such as topcoats (gabardines), parkas, and raincoats. These are worn over ceremonial dress tunics and jackets, which themselves bear the honours. (See paragraph 11 for comparative civilian protocol).
5. Although honour insignia may be bequeathed or given to a relative or friend (for Canadian orders, with the concurrence of the Order), only honours actually awarded to the individual concerned may be worn, regardless of the occasion.
6. The members have the option of choosing the means of having medals court mounted, e.g. getting the work done themselves and claiming reimbursement via a CF 52 General Allowance Claim or having the work done through base supply, who will action via LPO or whatever means provides the best economies.
  - a. Members claiming via CF 52 will be limited to amount determined by local commanders in accordance with financial regulations;
  - b. Miniature medals must be court-mounted at personal expense.

#### METHOD OF MOUNTING AND WEARING ORDERS, DECORATIONS AND MEDALS

7. **General**
  - a. **Order of Precedence.** The insignia of Canadian, Commonwealth and foreign orders, decorations and medals shall be worn in order of precedence without interval, with the senior closest to the centre of the chest.
  - b. **Method of Wear.** Medals should hang in one row so that they are fully visible. Should this not be possible, because of the number being worn, they shall be overlapped horizontally with the senior medal showing in full. Normally, six or more standard size medals and more than eight miniatures will require overlapping. The maximum width of the mounting is governed by the physique of the individual. The bar should not normally project beyond the outer edge of the lapel or the arm seam of the jacket.
  - c. **Court Mountings.** Court mounting shall be used. The length from the top of the medal bar suspender to the bottom edge of the medal shall be 10 cm. The ribbons and medals shall be mounted on a panel, its size being determined by the number of ribbons worn. The lower edge of the panel shall be in line with the centre of the medals. Commencing from the lower edge, each ribbon runs up the front of the panel to the top and back down to the medal. The medals shall then be stitched to the panel to prevent them from swinging. This method prevents medals from clinking against each other.
  - d. **Undress Ribbons.** Undress ribbons are worn as detailed in paragraphs 12 and 13. Undress ribbons shall not be visible when full size orders, decorations and medals are worn. Detachable ribbon bars should be used where necessary and appropriate and removed prior to affixing medals to the jacket.
  - e. **Broad Riband.** The broad riband of the senior degrees of some Commonwealth and foreign orders is worn over the shoulder, with the bow from which the badge is suspended on the opposite hip; normally the right shoulder and left hip, although officers of the orders concerned will provide correct instructions. With ceremonial tunics and jackets, the broad riband passes under any shoulder strap or board. With mess dress or civilian evening attire, it is worn under the jacket and over a waistcoat, and over a gown for a woman's civilian evening dress. Wear may be restricted to occasions in the presence of official representatives of the country to which the order belongs or during visits to or

service in that country. Only one riband will be worn, normally the senior if the member possesses more than one. However, the occasion will guide the choice.

- f. **Collars of Office.** The wear of a collar of office of an order is limited to those official occasions of significance and import to the office and order. When a collar is worn, any broad riband or neck ribbon of that order is not. The collar does not include the badge or insignia of the order. The badge or insignia is worn suspended either from the collar of office, when it is worn, or from a ribbon, when the collar is not worn. Collars are worn under shoulder straps, hanging an equal distance back and front, with the badge suspended below the front centre.
- g. **Stars of Orders.** A maximum of four stars of orders may be worn on the left side of a tunic or jacket, or civilian evening dress (white tie) or equivalent woman's civilian gown. Only one star may be worn with a civilian dinner jacket (black tie) or equivalent long or short gown:
  - (1) The first or only star is worn in line with the centre line of the breast pocket, and with the star's upper point 2.5 cm below the lip of the pocket, below any medals, or in the corresponding position on garments without a breast pocket.
  - (2) If more than one star may be worn, a second star is placed directly below the first, 2.5 cm apart. A third is worn horizontally with the second, senior to the right, 2.5 cm apart, and both centred below the first. (If this position interferes with a broad riband, the first and second stars may be worn in a horizontal line, with the senior to the right, and the third star beneath.) A fourth star is worn below the second and third, in vertical line with the first.
  - (3) Canadian commendations are worn above foreign Stars of Orders.
- 8. **Ceremonial Dress** (for wear of stars and broad ribands, see paragraph 7.).
  - a. **Neck Badges**
    - (1) A maximum of two neck badges may be worn with service dress jackets, and three with high collared jackets. Since neck badges cannot be worn on the left breast with other orders, decorations and medals, those in excess of the maximum authorized shall not be worn.
    - (2) Members in possession of more than the maximum number of neck badges may select which ones to wear, normally, but not necessarily, the senior ones in order of precedence. The occasion will guide the choice.
    - (3) Neck badges shall be worn as illustrated in Figures 4-1 and 4-2. The ribbon of the sole or senior badge shall be worn under the shirt collar and the badge over the tie, immediately below the knot.
    - (4) A second neck badge shall be suspended by a ribbon passed through the appropriate button hole so that the medal is suspended under the button, overlying the seam. With navy blue jackets, the next senior badge shall be worn with a full size ribbon immediately below the senior badge, the lower part of the badge resting on the cross of the lapel of the jacket.
    - (5) Members wearing authorized high collared tunics and jackets shall wear the senior ribbon round the neck inside and under the collar, with sufficient ribbon emerging from immediately above the top closure button to position the top of the badge 2 cm below the collar. The second and third badges shall be suspended by ribbon, passed through the appropriate button hole so that the medal is suspended under the button, overlying the seam.
  - b. **Other Decorations and Medals** (see Figures 4-1 and 4-2)
    - (1) Decorations and medals are worn court mounted, suspended from the left breast of the service dress jacket, immediately above and centred to conceal any undress ribbons.
    - (2) Bars and clasps shall be evenly spaced between the top and bottom ends of the ribbon, unless manufactured to grasp the hanger of the medal or a previous bar. In either case, where bars and clasps differ in design, the one first earned shall be nearest the medal.
    - (3) The numeral signifying United Nations/NATO tours shall be worn by members who have completed two or more qualifying tours with the same mission for which a numeral has been approved. The numeral for UN missions is silver in colour and bronze coloured for NATO missions. The numeral shall be centred on the appropriate ribbon of UN medals. On NATO medals the numeral shall be centred below the bar.
    - (4) If a mention-in-dispatches has been awarded during a campaign or conflict recognized with a separate medal, the insignia shall be worn centred on the medal ribbon and undress ribbon,

or worn above and spaced evenly with any bars, numerals or similar devices on the medal ribbon (see also paragraph 15.).

9. **Mess Dress** (see Figure 4-3 – for wear of stars and broad ribands, see paragraph 7.).
  - a. **Neck Badges**
    - (1) Only one neck badge is worn. It should normally be the senior, however a junior or foreign badge may be worn if it is more appropriate to the occasion.
    - (2) The badge shall be full size and shall be worn hanging 2 cm below the bow tie and 2 cm below the bottom collar seam of the blouse. The badge shall be suspended by the neck ribbon of the order, preferably of miniature width.
    - (3) Miniature insignia of all the neck badges entitled to be worn, including the one worn round the neck, shall be worn with other miniature insignia on the left breast unless the insignia is one which is never worn in miniature, e.g., Order of Merit (British) and Order of the Companions of Honour (British).
  - b. **Other Decorations and Medals**
    - (1) **Navy Mess Dress.** Miniature decorations and medals are worn centred on the left lapel, 1.3 cm below the horizontal edge of the lapel notch on the navy blue jacket and in a corresponding position on the lapel of the navy white jacket. They shall not extend beyond the lapel on the inner side, but, when necessary, may extend beyond the lapel towards the shoulder.
    - (2) **Army, Air Force (and CAF Midnight Blue) Mess Dress.** Miniature decorations and medals are worn on the left breast, centred between the seam of the sleeve and the edge of the lapel, 11.5 cm down from the shoulder seam, or 1.3 cm below a flying or specialist skill badge.
    - (3) **Dimensions.** Length from the top of the medal bar suspender to the bottom edge of the medals shall be a maximum of 5 cm. Regular size Arabic numerals for medals such as United Nations medals are worn centred on the miniature ribbon.
10. **Civilian Evening Dress** (for wear of stars and broad-ribbons, see paragraph 7.). Where decorations are appropriate for the occasion, the following shall apply to either evening dress or a dinner jacket, as applicable:
  - a. **Neck Badges**
    - (1) **Men.** As described in paragraph 9.
    - (2) **Women.** Wear only one full size badge. It is worn on a bow and attached to the dress immediately above any miniatures being worn. In addition to the full size badge, a miniature shall also be included on a medal bar when other miniatures are being worn. If miniatures are not being worn, the full size badge shall be worn without a miniature, with the top of the bow centred on the left side of the dress, approximately 7.5 cm down from the shoulder seam.
  - b. **Miniatures**
    - (1) **Men.** Wear miniatures on a narrow lapel jacket centred above the left breast pocket, with the bottom of the miniature 0.6 cm above the top of the pocket. On a wide lapel jacket, miniatures are worn centred on the left lapel, at approximately the same height above the pocket line as in the case of narrow lapels.
    - (2) **Women.** Wear miniatures suspended from a medal bar attached to the left side of the dress, approximately 13 cm down from the shoulder seam, where practicable. If in possession of only one such award, it may be worn on a bow.
11. **Civilian Morning Dress, Lounge Suits, Blazers, and Women's Day Dresses**
  - a. Where decorations are appropriate for the occasion, such as investitures, Remembrance Day and other memorial services, and some formal parades, one neck badge and/or full sized medals are normally worn.
  - b. As many as four stars of orders may be worn on a tailcoat, but only one on a director's (short black) coat or an afternoon dress. Stars of orders are not worn on lounge suits or blazers.

- c. When lounge suits, blazers and equivalent women's attire are worn in the evening in lieu of evening dress, it is quite acceptable to wear miniatures rather than full sized medals.
- d. Only those full-size insignia mounted on a medal bar may be worn on a civilian overcoat at outdoor functions. Neck badges are covered normally by outerwear. Stars of orders are not worn on overcoats.
- e. Included in the insignia of some orders and decorations is a lapel badge. This badge may be worn on the left lapel of a coat or jacket at any time when the full size or miniature insignia or the undress ribbons are not being worn. Women wear this badge in a similar position on a dress.
- f. When orders, decorations, and medals are worn, commendations and other authorized emblems shall not be obscured, and where necessary shall be repositioned lower, 2.6. cm from the bottom of the medals to the top edge of the senior commendation or emblem.

## **METHOD OF WEARING UNDRESS RIBBONS**

(see Figure 4-4)

### **12. General**

- a. Undress ribbons of orders, decorations and medals may be sewn, but shall normally be placed on a detachable ribbon bar and pinned, on the left breast of the service dress jacket, and on Nos. 2B, 3B and 3D orders of dress. Ribbons shall be worn in order of precedence from right to left of the wearer, with the senior ribbon closest to the centre of the chest on the top or only row. Where a single ribbon constitutes a row, it shall be worn centred above a lower row, or when worn as a single ribbon, centred on the garment as detailed in paragraph 13.
- b. Ribbon rows shall not be worn more than 0.3 cm apart.
- c. The number of ribbons worn in a single row is governed by the physique of the individual and the type of garment being worn. The grouping, however, shall respect the following conditions:
  - (1) ribbons shall not be fully obscured by the lapel of the garment;
  - (2) a maximum of three ribbons may be worn in a single row on authorized service dress jackets;
  - (3) up to three ribbons may be worn in a single row on short-sleeved shirts;
  - (4) where three ribbons cannot be worn in a single row without one becoming fully obscured, ribbons shall be worn in two rows, with two ribbons on the bottom and the senior ribbon centred above;
  - (5) ribbons shall not be arranged in more rows than are necessary to comply with these instructions;
  - (6) where more than one row of ribbons is worn, no row shall contain fewer ribbons than the row above;
  - (7) when more than one row of ribbons is worn, a single ribbon shall not be worn as a lower row;
  - (8) succeeding rows shall, without fully obscuring any ribbon, be centred above the lower row;
  - (9) when there is such a significant number of ribbons that centering the two ribbons above or the single ribbon above a full row causes the ribbons to be obscured by the lapel, then the ribbons may be left justified as appropriate; and
  - (10) standard arrangements of ribbons by row(s) are illustrated in Figure 4-5.
- d. Where a device such as a miniature cross, an oak leaf, a rosette or maple leaf, or a tour numeral is appropriate for wear on an undress ribbon, it shall be centred on the ribbon. Where there is more than one, they shall be evenly spaced across the ribbon with the senior device on the wearer's right.

### **13. Detailed Instructions**

Undress ribbons shall be positioned in rows, centred immediately above the left breast pocket of authorized jackets and shirts.

## **PRESIDENTIAL UNIT CITATION OF THE UNITED STATES**

- 14. This emblem (see A-DH-200-000/AG-000 The Heritage Structure of the Canadian Armed Forces) shall be worn by authorized personnel on both sleeves of the service dress and mess dress jackets, centred 6.5 cm below the shoulder seam. The insignia shall also be worn on both sleeves of the No. 3B short-sleeved

shirts of authorized personnel, centred 6.5 cm below the shoulder seam. If both the Presidential Citation NAVY and ARMY are worn, the NAVY goes below the ARMY.

## MENTIONS-IN-DISPATCHES AND COMMENDATIONS

15. **Mention-in-Dispatches (MID).** A bronze, single oak leaf emblem, normally worn on campaign ribbons (see sub-sub-paragraph 8.b. (4), above). If awarded under circumstances where no appropriate ribbon is available, it is worn as noted below.

## CHAPTER 6

### FULL DRESS AND UNDRESS UNIFORMS

#### OVERVIEW

1. Full dress and undress are optional uniforms which may be worn on formal occasions. Together with standard mess dress (No. 2 order of dress – see Chapter 5, Annex B), they form a group of related items which reflect the functional heritage of military organizations.
2. Except as provided in paragraph 3, these optional uniforms are worn at no expense to the public (see Chapter 2, Section 1, paragraphs 24. to 26.).
3. Grants are provided to assist authorized bands and alternative voluntary ceremonial sub-units in maintaining ceremonial uniforms not provided at public expense. See QR&O 210.345, 210.354 and CFAO 210-18. Full dress and some undress uniform items are provided at public expense for RMCC and the Ceremonial Guard, Ottawa.

#### AUTHORIZED PATTERNS

4. Universal full dress patterns are illustrated in Figure 6-1, and undress patterns in Figure 6-13. Rank group differences apply only to full dress.
5. Authorized variations for environments, branches/corps and regiments are described below and in this chapter's annexes.

13. **Wear Guidelines.** The composition of full dress uniforms may be adjusted in accordance with established custom for wear on less formal or more relaxed occasions or duties.
  - a. The most common adjustment is the wear of undress caps (service/forage caps, berets, wedge/field service caps, glengarries, etc) in lieu of full dress headdress.
  - b. Trousers and footwear are the same for full dress, mess dress, and, where authorized for RMCC and the Army Reserve, undress (see paragraph 16.). When undress caps are worn, the difference between these various dress uniforms is essentially the tunic or jacket worn and its accessories.
14. **Outerwear.** Full dress outerwear includes greatcoats and capes in traditional patterns and colours.
  - a. Atholl grey outerwear, traditionally worn by regiments of foot guards, is also the Army universal pattern. Rifle regiments may wear green, as an optional version. Inverness Capes in army green or air force blue may be worn as rainwear by pipe bands on parade and kilned units while off parade.
  - b. Units without traditional-pattern outerwear may wear standard service dress outerwear under inclement conditions. The decision to do so should be based on weather, the need to protect clothing, and uniformity. This outerwear includes:
    - (1) topcoat (gabardine);
    - (2) raincoat;
    - (3) gloves, leather black, or white in accordance with branch/corps/regimental custom; and
    - (4) scarf (topcoat (gabardine) and raincoat only)

#### **AUTHORIZED UNDRESS (NO 1C AND 1D ORDERS OF DRESS)**

15. **Authorized Wear**

- a. Undress is authorized for wear only by:
    - (1) RMCC officer cadets as an undress uniform in accordance with college dress instructions;
    - (2) Navy members as a summer white uniform (optional Orders 1C and 1D – high-collared whites); and
    - (3) members of the Army Reserve as optional Orders 1C and 1D, e.g., patrol dress.
  - b. Undress may also be worn without orders, decorations and medals (undress ribbons may be worn in lieu) on less formal occasions when the wearing of orders, decorations and medals would be considered inappropriate.
  - c. Accoutrements may also be worn with No. 1D order of dress.
16. **Authorized Patterns** (see Figure 6-13). Trousers and footwear are the same for full dress, undress (patrol dress) and mess dress. See sub-paragraph 13.b. and Chapter 5, Annex B. Outerwear is the same as for full dress – see paragraph 14. Spurs may be worn with George Boots by those traditionally classed as mounted personnel when wearing overalls.
- a. **Colour.** Except as noted below, undress shall be blue. Tropical white undress (jacket and trousers) is not normally worn in Canada except as an optional navy summer order (Chapter 5, Annex A). White undress jackets may also be worn by Army Reserve units and Air Force pipe bands during hot weather; the universal jacket pattern is the same as that for the navy except for kilted units. Shoulder straps/boards are the same colour as the patrol dress jacket.
  - b. **Armoured Regiments.** Members of armoured regiments may wear shoulder chain-mail. Officers, warrant officers, and sergeants may wear shoulder belts.
  - c. **Rifle Regiments.** Members of rifle regiments wear green patrol dress. Officers, warrant officers and sergeants may wear shoulder belts in accordance with regimental policy.
  - d. **Kilted Regiments**
    - (1) Members of Scottish and kilted Irish regiments wear a special pattern of patrol dress: an undress doublet, or a cutaway patrol jacket.
    - (2) Highland Scottish regiment undress doublets shall be green, and Lowland regiment undress doublets and cutaway patrol jackets shall be blue, unless otherwise authorized.
    - (3) Kilts, hose and some other items are worn in common with full dress (see Annex B).
    - (4) Units in possession of a large number of coatees may continue to wear them in lieu of the doublet, but shall replace them with the doublet through attrition.
  - e. **Other.** In accordance with branch/corps and regimental customs, officers may wear:
    - (1) shoulder cords (see paragraph 18.), straps or boards; and
    - (2) for army officers, waist sashes (shoulder sashes in kilted units), except where shoulder belts are worn. See Chapter 3, Section 7, paragraphs 28. to 31.
  - f. **Headdress.** Full dress headdress is not worn with undress jackets. The following undress headdress may be worn in accordance with branch/corps or regimental custom:
    - (1) service dress caps/hats, where authorized;
    - (2) turbans by adherents of the Sikh religion;

- (3) forage caps (i.e. service caps styled and coloured for wear as undress headdress with full dress uniforms);
- (4) berets or wedge caps (including those latter styled and coloured as field service caps for undress wear with full dress); and
- (5) glengarry, balmoral, tam o'shanter or caubeen.

#### **FULL DRESS AND UNDRRESS INSIGNIA**

17. Normal CAF insignia shall be worn on full dress and undress. RMCC officer cadets wear college appointment insignia on their collars in lieu of officer cadet rank insignia.

18. Where background cloth might obscure easy recognition, e.g., NCOs black or blue rank chevrons on a green tunic or blue jacket or grey greatcoat the insignia may be highlighted by backing it with scarlet, blue, or green (depending on garment colour) or gold Russia braid outline (foot guards patrol dress). For contrast, officer rank insignia, silver metal or silver embroidery, is worn on gold or gold trimmed shoulder cords/straps/boards; gilt metal or gold embroidered insignia on cloth straps/boards. In Rifle Regiments insignia will be black or gun metal, as may be authorized.

#### **PATTERNS AND SPECIFICATIONS**

19. Advice on tailoring specifications may be obtained from Branch Advisers or NDHQ/DSSPM through the chain of command. To minimize expense, units are advised to pool purchases where practical.

#### **PARADES**

20. Only ankle boots or shoes (oxfords) are authorized for wear on parade, except when wearing overalls. George boots shall be worn with the latter. According to branch/corps or regimental custom, officers and CWOs may wear George boots with trousers.

## CHAPTER 7

### HEALTH, SAFETY AND OCCUPATIONAL DRESS

#### POLICY

1. Safety and occupational dress items are intended and authorized for wear in the work place and during the execution of appropriate duties. The items are worn in common by all entitled CAF members with or in lieu of service dress items. They may also be worn with operational dress, subject to direction of the environmental commander concerned.
2. Standard service dress items, such as topcoats (gabardines), are not included in this chapter. Their wear shall be as directed elsewhere in these instructions or as directed in local orders/instructions.

#### SAFETY CLOTHING AND EQUIPMENT

3. **Motorcycles, Motor Scooters, Mopeds, Snowmobiles and Bicycles**
  - a. Civilian-pattern helmets shall be worn by personnel in uniform when operating or riding a motorcycle, motor scooter, moped, or snowmobile, other than as part of their normal duty. The helmet shall be free of insignia and gaudy or bizarre designs. Appropriate military headdress shall be carried for wear immediately upon dismounting from the vehicle. The wearing of a helmet when operating a bicycle is strongly encouraged.

Military-pattern or other issued helmets and goggles shall be worn by personnel operating or riding a military motorcycle or snowmobile in the performance of their duties. Under conditions of severe cold where the wearing of a helmet is not compatible with the wearing of protective clothing, the wear of a helmet may be waived by the commanding officer.
  - b. The chin strap of all helmets shall be kept fastened when the vehicle is in motion.
  - c. Jackets and other protective clothing are optional but recommended for wear by CAF personnel when operating motorized vehicles indicated at sub-paragraph 3.a., above.
  - d. The protective clothing shall normally be of a sombre subdued style, but need not cover the uniform completely (i.e. a jacket by itself is acceptable).
4. **Construction Helmets.** These helmets shall be worn by all personnel in a designated hard-hat area. Upon leaving the hard-hat area, the helmet shall normally be replaced by standard, authorized headdress. However, helmets may be worn between hard-hat sites on a defence establishment, with no administration stops permitted.
5. **Safety/Linesman's Boots Commercial Pattern.** These boots shall be worn with occupational or operational orders of dress, by authorized personnel who require them for their occupational duties. The boots shall be worn at the work site, and may be authorized for wear within the confines of a defence establishment and when commuting between residence and place of duty.
6. **Safety Glasses/Goggles.** These items, which are other than prescription safety lenses mounted in conventional eyeglass frames, shall be worn in accordance with local safety instructions, by authorized tradesmen at the work site and when operating specific construction and operational equipment (see also sub-paragraph 3.b.). They shall not be worn off the work site. Prescription safety lenses mounted in conventional eyeglass frames may be worn with all standard orders of dress.
7. **Commercial Headsets**
  - a. Commercial headsets shall not be worn by personnel in uniform, except where required in the

performance of a military duty. Similarly, personnel on duty wearing civilian clothes shall not wear a commercial headset. Ear buds may be worn when travelling on public transit only.

## **MATERNITY DRESS**

8. When conventional pattern uniforms are no longer comfortable or aesthetically appropriate, a pregnant woman shall commence wearing maternity dress.
9. Non-operational maternity dress is a common-pattern ensemble in light-weight, washable material in three environmental colours. There is also a white occupational variant for medical, dental, and food services personnel, worn as well by navy personnel during the summer dress period.

## **MILITARY POLICE**

13. **Military Police Occupational Patrol Dress (MPOPD).** The MPOPD is a black uniform ensemble designed, and intended for military policing duties within Canada. It facilitates the unambiguous identification of MP during routine and crisis situations particularly where the swift recognition of MP personnel is critical. In emergencies such as "Immediate Action/Rapid Deployment" (IARD) responses, all MP 00214 and MPO 00161 members, regardless of their routine duties, must be able to respond to an "active shooter" incident in order to prevent or minimize casualties. Consequently, all qualified MP/MPO tasked with delivering military policing services at a Defence Establishment are to be issued with, and routinely wear, MPOPD in tandem with MP soft body armour and sidearm. The MPOPD ensemble consists of the following:
  - a. Jacket, black, dual layer removable system, bomber style, worn over the soft body armour. The jacket is equipped with a pull-down flap on the back with the words "MILITARY POLICE/POLICE MILITAIRE". This flap is only displayed when increased visibility is required.
  - b. Shirt, black, short sleeve or long sleeve, with front pockets, worn tucked into the trousers;
  - c. Trousers, black, with side cargo pockets, worn straight leg style and not bloused.
  - d. T-shirt, crew-neck, short sleeve (local purchase). T-shirts shall be solid black in colour and not be altered or bear any visible markings on the collar, sleeves, or body. T-shirts are to be worn underneath the MPOPD shirt and their sleeves shall not extend past the edges of the exterior shirt's sleeves;
  - e. Shirt, turtleneck, black, long sleeve (local purchase). Turtleneck shirts shall be solid black in colour, of a light construction, and not altered or bear any visible markings on the collar, sleeves, or body. Turtlenecks may only be worn underneath the long sleeve MPOPD shirt and their sleeves shall not extend past the edges of the exterior shirt's sleeves. The collar, when folded, shall not extend more than half-way up the wearer's neck;
  - f. Boots, combat, black, or boots, cold weather, black. Subject to Canadian Forces Provost Marshal (CFPM) policy, MP personnel may wear commercial police-style boots with the MPOPD (local purchase);
  - g. Scarlet beret or turban, with MP Branch cap badge;
  - h. The tuque, navy, black or hat, winter black, Yukon is authorized for wear with the MPOPD in cold or inclement weather during winter dress periods. The MP Branch cap badge shall not be affixed to either form of winter headdress; and

- i. Any other component(s) of dress specific to the performance of military police duties that are authorized by the CFPM and published in MP policy.

Questions concerning the MPOPD should be directed to the Deputy Provost Marshal Police and Security (DPM Police Secur) or the MP Branch CWO.

14. **MPOPD Rank Insignia and Unique MP Identifiers.** The following identifiers are authorized for wear and shall be worn with MPOPD:

- a. Rank Insignia. Irrespective of the environmental affiliation of the wearer, black naval rank "slip-on s" shall be worn on the epaulettes of all MPOPD shirts, jackets, and soft body armour. The rank insignia on the MPOPD shirt may be removed when wearing the soft body armour, but must be replaced when the armour is not being worn;
- b. Shoulder Insignia. All MPOPD shirts and jackets as outlined in para's 13a and 13b will have the MP shoulder patch (NSN 8455-21-921-6589) sewn on both upper sleeves. This patch shall not be affixed to any undergarment, such as T-shirts, or turtlenecks, or any other item of clothing not authorized for MPOPD wear; and
- c. Nametapes. Black cloth nametapes with gold embroidered lettering and elemental identifier shall be affixed to MPOPD shirts and soft body armour by means of a hook-and-loop fastening system. Early pattern MPOPD items that do not have the required fastening system shall be tailored accordingly in order to accommodate the correct placement of nametapes.

15. **Military Police Accoutrements and Personal Protective Equipment.** The following accoutrements and personal protective equipment (PPE) are authorized for wear and shall be worn with MPOPD:

- a. Headdress. Scarlet headdress identifiers shall be worn by all Military Police personnel with all ceremonial and service orders of dress as detailed in Chapter 5 and, in the case of turbans, Chapter 2;
- b. Duty Gear. MP Duty Gear consists of any equipment items worn on or with MPOPD by MP personnel performing patrol or IARD duties. Duty Gear equipment includes, but is not limited to the duty belt, pistol holster, handcuff case, and carriers for any approved intermediate weapon. Only items appearing on the MP scale of issue (D01307 CFS) and/or authorized by the CFPM shall be worn with MPOPD; and
- c. Miscellaneous Accoutrements and PPE. Other MP accoutrements and PPE (e.g. soft body armour, search gloves, etc) as prescribed by the CFPM through MP Branch policy, are authorized for wear when performing military policing duties. Questions concerning such equipment items are to be directed to DPM Police Secur or the Branch CWO.
