

*The Emerson Infantry Company.*

Under command of Capt. Nash, has performed no drills for two years, or since the expiration of their first term of service. It may, therefore, be regarded as thoroughly disorganized at the present moment.

Capt. Nash made an attempt to reorganize this past summer, but failed, principally in consequence of the excessive business demands on the men's time at the place, but also in a great measure owing to the generally experienced difficulty of getting new men to accept the old clothing of their predecessors.

He will endeavour to reorganize next spring, and feels confident of success if promised a new issue of clothing.

*The St. Jean Baptiste Infantry Company:*

Under command of Capt. Thibault, has performed no drill, owing to the absence of the captain, who until very recently has been residing and doing business in Winnipeg, and none of the other officers of his Company being qualified to instruct in drill. Capt. Thibault was duly notified to have his armoury inspected on the 1st December, but wrote stating he could not be ready by that date. Consequently his arms have not yet been inspected, but I purpose doing so some time in January, should the weather not be too unfavorable.

*The North-West Corps.*

Consisting of three Mounted Infantry and two Infantry Companies, have never been inspected since their first organization in October, 1879. \*

In consequence of not yet having received any uniforms, they were relieved from drill this year, by order of the Adjutant-General, dated August 10th.

A copy of this letter, including reference to the inspection of arms, was forwarded to each officer commanding a company in the North-West on the 1st September, but up to the present date replies have only been received from Capt. Scott, commanding the Battleford Infantry Company, and Capt. Hughes, commanding the Duck Lake Mounted Rifle Company, both of whom report the arms, &c., in their charge as complete and in good order.

In reference to these corps I may state that it is hardly to be expected that they will give up much of their valuable time and supply their own horses for drilling purposes, or even regard themselves in the light of a properly organized body of militia, until after they have been furnished with uniforms of some pattern of denomination.

*General Remarks.*

During the year 1882, there has been such a press of business thrown upon the shoulders of every member of the community in Manitoba and the North-West Territories, and salaries and wages have been so high, and business of every kind remunerative, it was hardly possible to expect that either officers or men would be able to devote the busy hours of the day to drilling, especially in such uninteresting small numbers as the present militia organization of the Province of Manitoba would be able to afford; at the same time I have the officers, particularly those connected with the city corps of Winnipeg, and I am myself fully satisfied that were the infantry increased to a six company battalion and a suitable drill shed erected in a central position in the city, with armouries, &c., attached, as in other cities in Canada of far less importance than Winnipeg, there would be no difficulty whatever in recruiting and keeping up one of the finest battalions in Canada, as there is no finer material in any portion of the Dominion than is to be found at the present time in this city and the North-West generally.

If any amount of proficiency is to be expected from the cavalry it certainly must be either obtained in camp or all the members of the corps must own their own

horses, as it is quite impossible to make anything of horses hired for the day from some livery stable, and most probably let out to a different rider for each drill.

The aspect of the North-West and Manitoba has so altered since the first organization of a militia here, that I strongly recommend the reconstruction of the whole force, the necessity for which course cannot but be apparent to all, when the immense increase of population of the last three years is taken into consideration. (2)

*Manitoba Rifle Association.*

The annual prize meeting of the Provincial Rifle Association was held on the Point Douglas Range on the 22nd August and three following days.

The shooting was very fair considering the class and condition of the rifles at present in the hands of the militia here, they being the same that were brought up by the first and second "Red River Expeditions" in 1871 and 1872, and have never since been even overhauled by an armourer.

There was upwards of \$2,000 distributed in prizes at that meeting, which was in every respect a successful one, and promises well for the future.

The regulations relative to pay lists (G. O., 9, 5th May, 1880) have been strictly carried out, and no discrepancies have been found to exist.

I have the honor to be, Sir,

Your obedient servant,

C. F. HOUGHTON, Lieut.-Col.,

Deputy Adjutant-General Military District No. 10.

The Adjutant-General,  
Headquarters, Ottawa.

NOTES BY MAJOR-GENERAL COMMANDING.

(1) It would seem that of a total established strength of 580—and of 450 authorized to drill—only the strength of the Winnipeg Field Battery, 75, actually drilled.

(2) It appears clear to me that this District is in an unsatisfactory condition—but without seeing it for myself, and conversing with the officers and others connected with the Militia of the District, I do not feel justified in making recommendations for its improvement. A visit to Manitoba would, I hope, enable me to make suggestions of a practical nature for the benefit of the Force.

## MILITARY DISTRICT No. 11.

VICTORIA, B.C., 12th December, 1882.

SIR,—I have the honor to report upon the state of the Militia in this Military District as follows:—

The established strength of the force in this district is:—

	Officers.	N.-C. Officers and Men.
Garrison Artillery (1 double strength battery) ..	6	85
“ “ (1 half “ “) ..	2	30
Infantry (4 companies) ..	12	163
Total ..	20	283

Number of active militiamen authorized for annual drill:—

In camp ..	none
At headquarters ..	300

Corps' which performed drill at headquarters:—

*Strength at Inspection.*

	Officers.	N.-C. Officers and Men.
Victoria Battery Garrison Artillery ..	4	29
Seymour “ “ “ ..	2	15
No. 2 Company Victoria Rifles ..	2	15
New Westminster Rifle Company ..	2	20
Nanaimo Rifle Company ..	1	16
Total ..	11	95

Corps which did not perform annual drill (1).

Authorized to drill:—

No. 1 Company Victoria Rifles.

## INSPECTION REPORT OF CORPS.

*Victoria Garrison Artillery.*—(Present, 4 Officers, 29 Men.)

The inspection of the Victoria Battery Garrison Artillery, was held at 10.30 a.m. on the 2nd December, at Finlayson Point Battery. The inspection had been fixed for an earlier day and postponed on account of the state of the weather, and was finally held under very unfavorable circumstances for a strong muster.

As well as that the inspection was in the day time, when it is more difficult for men to attend than in the evening, until nearly noon, rain was falling and the weather otherwise was very unfavorable for gun practice, causing doubt in the minds of many of the men as to whether there would not be another postponement, resulting in their non-attendance, they being unwilling to sacrifice a day's wages, at the high rates in this Province, in the uncertainty as to their being required. There were present at the inspection, 4 officers and 29 non-commissioned officers and gunners. Shortly after noon, His Excellency the Governor General arrived at the Battery, and remained for a considerable time witnessing competitive shot and shell practice.

Before his departure the men were addressed by the Governor General, when His Excellency was pleased to compliment them upon their practice and the manner in which they had discharged other duties that had come under his observation.

The target was originally anchored at 1,400 yards distance and was very difficult to see, being merely a barrel with a small flag. The strength of the tide caused it to drift until the distance exceeded 2,000 yards.

A high wind, causing considerable sea, also prevailed, making the target at times invisible and causing delay; allowing for which difficulties, the practice was very good.

A detachment of the battery, during the season of drill, dismantled a 64-pounder gun at Victoria Battery, and removed it, together with carriage and traversing platform, to the drill shed, re-mounting it there, having thus not only valuable practical drill, but providing for drill purposes at the shed, a gun mounted on the same description of carriages as those they have to work at Finlayson Point Battery.

In consequence of myself acting as Deputy Adjutant-General, the battery has this season been under command of Lieutenant Jones, who has been very zealous in discharging his duties.

*Seymour Half Battery of Artillery.*—(Present, 2 Officers, 15 Men.)

Inspected this battery, under command of Captain Pittendreigh, at the Drill Shed, New Westminster, on the evening of the 25th November. There were present 2 officers and 15 men in the ranks.

This battery labors under great disadvantages in not having guns available for practice or even for drill purposes. Captain Pittendreigh strengthened the rotten carriages of his two howitzers sufficient to fire a salute on the arrival, at New Westminster, of His Excellency the Governor General and Her Royal Highness the Princess Louise, but no practice is possible, and no pride or interest can be aroused in the corps in such an armament.

*New Westminster Rifles.*—(Present, 2 Officers, 20 Men.)

Inspected at Drill Shed, New Westminster, under command of Captain Peele, on the evening of the 25th November, when 2 officers and 20 men were present.

There was also present, during the inspection of this company and the Seymour Artillery, a band of 18 performers, of whom 10 are returned by Captain Peele as enrolled members of his corps, and 8 by Captain Pittendreigh as enrolled in his battery.

This band is under the management of a competent and experienced bandmaster, and is in a very efficient state. It received the first prize at the Provincial Agricultural Society's band competition. It is not desirable that the existing strength of the corps at New Westminster should be weakened by such a number being drawn from them for musicians, but as a band is of great value in the Militia, and this band is so well organized, I would respectfully recommend that the formation of a band of 15 performers be sanctioned in addition to the authorized strength of the corps.

*No. 2 Company Victoria Rifles.*—(Present, 2 Officers, 15 Men.)

Inspected at Drill Shed, Victoria, under command of Captain Fletcher, on the evening of the 30th November, when there were present 2 officers and 15 men.

Manual, firing and bayonet exercises were gone through creditably.

*Nanaimo Rifle Company.*—(Present, 1 Officer, 16 Men.)

Inspected at Nanaimo, under command of Lieutenant Harvey, on the evening of the 12th of December, when 1 officer and 16 men were present. As well as the other corps, the muster of this company was regretably small, but the manner in which a

number of infantry movements, including extended order, and the manual and firing exercises were gone through with, was very satisfactory, and evidenced that much attention had been paid to drill.

#### GENERAL REMARKS.

During the visit to this Province of His Excellency the Governor General, and Her Royal Highness the Princess Louise, guards of honor were furnished on four occasions at Victoria, and once at New Westminster and Nanaimo.

A permanent guard of two non-commissioned officers and four men was also maintained at Government House, from the 20th September to the 26th October, drawn from Victoria Battery, and Nos. 1 and 2 companies Rifles alternately.

His Excellency, by a letter from His Military Secretary, Lieut.-Col. de Winton, R. A., C.M.G., was pleased to express his satisfaction with the manner in which these duties were performed.

Royal salutes were fired by the Victoria Battery at eight in the morning of arrival of His Excellency and Her Royal Highness, upon their landing at Esquimalt, and again upon their departure. And a Royal salute was fired by the Seymour Artillery, upon the arrival at New Westminster of His Excellency and Her Royal Highness.

#### Batteries.

The sum of \$600 has this year been expended in revetting Macaulay Point and Finlayson Point Batteries (2). The work has been well done under the supervision of the Assistant Engineer of the Department of Public Works at this place—but the grant of \$600 was not sufficient to complete the work, and there still remains unrevetted, and in a very unsightly condition at Macaulay Point Battery, the rear part of battery and the shelter trenches of magazine. There is a large amount of material in the way of cedar posts on hand, leaving little more than the labor to be provided for to complete the work. Mr. Gamble, the Assistant Engineer, estimates that \$150 will suffice to finish this work. Unless this is done the shelter trenches will soon be filled up, and also the material on hand will be wasted or gradually carried away or burned by Indians and others.

Would strongly recommended that authority to expend the additional sum of \$150 be granted (3).

#### Armament in position.

The guns in position are in good order, but should next spring be freshly lacquered, and the carriages be painted. The stores from Macaulay Point and Brother's Island Batteries, have been removed for their better preservation to the drill shed, the store rooms at these batteries being very damp, and having also (as reported at the time) been twice broken into and certain articles stolen.

#### Arms and Clothing.

I inspected the armouries of the several corps that paraded for inspection, and found the arms clean and well cared for, and the clothing in good order, allowance being made for fair usage.

The Artillery clothing, which has now been in use for four seasons, has suffered most from the nature of the duties of artillerymen, and will need to be renewed by next season.

It would be economy to furnish, in addition to the cloth tunics and trousers, a suit of serge to each man (4), as working at heavy guns and tackles, carrying projectiles, &c., is destructive to clothing.

#### Ammunition.

There remain in the magazine only 10 boxes (4,200 rounds), of Snider-Enfield ball cartridge, and this is all that there is in the Province. Her Majesty's Navy being armed with the Martini-Henry Rifle, no Snider-Enfield ammunition is kept at the dock yard (5).

It has been impossible to supply the rifle associations, or even to expend in class firing by the Militia the regulation allowance, and should an emergency occur requiring the services of the Militia, the present short supply of ammunition might be a serious inconvenience.

I would respectfully recommend that as expeditiously as possible a fresh supply be sent. Sixty thousand rounds of Martini-Henry ammunition have recently been received by the Militia Storekeeper of this District, presumably intended for the 25 Martini-Henry rifles applied for some time since by the Provincial Rifle Association, and in respect to which the President of that Association received an intimation that they would be sent. They have not yet been received.

#### Drill Shed.

This building requires important repairs, delay in respect to which will involve in the end a much heavier outlay (6). A special report on this subject will be sent in.

I have the honor to be, Sir,

Your obedient servant,

C. T. DUPONT, Captain,

Acting Deputy Adjutant-General, Military District No. 11.

The Adjutant-General of Militia,  
Ottawa.

#### NOTES BY MAJOR-GENERAL COMMANDING.

(1) The weakness of these corps is remarkable:—Out of a total of 20 officers and 283 non-commissioned officers and men, there appeared at inspection only 11 officers and 95 men; showing how necessary it is that steps be taken to increase the interest of the men in their duty.

(2) At the suggestion of the Inspector of Artillery of the Dominion, I beg to recommend that the rear slope of the Battery—except that portion just in front of the Expense Magazine—be graded to a slope of 45°, which will not require revetting, and that the earth so obtained be used to strengthen the epaulments or the flanks of the Battery.

(3) Recommended.

(4) Recommended.

(5) For these reasons I recommend that Snider rifles be withdrawn from the Militia Corps of District No. 11, and in their stead that Martini-Henry rifles be issued to them; so that the ammunition for the Militia may be the same as that used by the Royal Navy and Royal Marines, thus removing all chance of confusion which might occur by the use of two descriptions of ammunition in case of active service of any sort.

(6) Delay in doing necessary repairs is bad economy.

## MILITARY DISTRICT No. 12.

DEPUTY ADJUTANT-GENERAL'S OFFICE,  
ST. JOHN, N.B., 5th December, 1882.

SIR,—I have the honor to forward for submission to the Major-General Commanding, the tabular inspection return of Military District No. 12, being the details of the Annual Drill performed by each corps in the District.

2. The following is the established strength of the Active Militia, by arms, in the District:—

The strength of the existing corps was:—

*Garrison Artillery.*

	Officers.	N.-C. Officers and Men.
"Prince Edward Island Provisional Brigade," (3 Batteries).....	14	126

*Engineers.*

"Charlottetown," (1 Company).....	3	42
-----------------------------------	---	----

*Infantry.*

82nd Battalion, (6 Companies).....	25	272
"King's Co." Provisional Battalion, (2 Companies).....	6	84
"Prince Co." Provisional Battalion, (2 Companies).....	6	84

3. The number of active militiamen authorized for annual drill were:—

	Officers.	N.-C. Officers and Men.
In Camp.....	nil	nil
At Headquarters.....	33	420

4. The corps which performed drill at headquarters were:—

*Artillery, Garrison.*

The "Prince Edward Island Provisional Brigade," Major Irving, 3 Batteries.

*Engineers.*

"Charlottetown," Company, Major Doherty, 1 Company.

*Infantry.*

82nd Battalion, Lieut.-Col. Beer, 4 Companies.  
No. 1 Company, King's Co. Battalion, 1 Company.  
No. 2 Company, Prince Co. Battalion, 1 Company.

5. Corps which did not perform annual drill were:—  
Authorized to Drill.—Nil.

Not authorized to Drill:—

*Infantry.*

Nos. 2 and 6 Companies 82nd Battalion.  
No. 2 Company, King's Co. Battalion.  
No. 1 Company, Prince Co. Battalion.

## SPECIAL REMARKS.

The corps in this District which were detailed for annual drill had instructions to perform it at their local headquarters.

The Artillery and Engineers were inspected by the Inspecting Officers of their respective branches of the service; the Infantry were inspected by the Brigade-Major, as soon as each company had completed its drill.

Major Freeland reports the drill of Nos. 3 and 4 Companies, 82nd Battalion, as being satisfactory, but that of the other 4 Companies who drilled, as "only fair."

I believe that no improvement can be expected so long as these companies are permitted to drill at their company headquarters.

I would respectfully suggest that next year, if the companies named for drill were formed into a temporary Provisional Battalion, and went through their annual drill together in camp under command of the Brigade-Major with one officer to assist him, the improvement of the companies would be very apparent—the transport expense for a camp in the island would be trifling, as they would travel by Government railway, and no other camp staff would be required. (1)

The Brigade-Major reports that "the formation of the three Independent Garrison Batteries into a Provisional Brigade of Artillery under command of Major Irving, has worked well, and the influence of that energetic officer has thereby been extended to the three batteries with excellent results." (2.)

"The arms and accoutrements are generally in a serviceable condition, orders have been issued to send all rifles that require repairs, to headquarters in order that they may be forwarded to Halifax for repairs."

"The Provincial and County Rifle Associations have held their annual meetings and are in a satisfactory condition."

I have the honor to be, Sir,  
Your most obedient servant,

JOHN B. TAYLOR, Lieut.-Colonel,  
Deputy Adjutant-General,  
Military District No. 12.

The Adjutant-General of Militia,  
Ottawa.

## NOTES BY MAJOR-GENERAL COMMANDING.

(1) I recommend the plan for adoption.

(2) I have not seen the Prince Edward Island force, this year, but have a good opinion of their promise towards efficiency by what I saw last year, and they possess the advantage of an excellent staff officer, Major Freeland.

## performed the Annual Drill for 1882-83—Continued.

Time required to concentrate the Battalion or Corps.	Cost of rations per head, per diem, at encampment.	General Conduct of Corps.	If any, and what casualties.	Whether in possession of Band. Number of Musicians and proficiency.	General State of Clothing, Arms and Accoutrements.	Nature of movements at Inspection, and how performed.	Whether the Men of the several Corps were <i>bona fide</i> enrolled members thereof, according to the Militia Act.	Number of Non-exercised Men, if any.	Target Practice.		Date of Inspection.	Date when Drill was completed.	REMARKS.
									Battalion.	Company.			
12 hours.	Men, 18 07c; horses, 32c.	Generally good; 5 men punished by Provost Officer.	None reported.	Yes; 20 musicians; fair.	Nothing serviceable, but tunics much stained from the sticky knapsacks; arms and accoutrements serviceable; knapsacks unserviceable.	Marching past in column and quarter column, brigade movements and field day. Inspected by Major General Luard.	So reported.	Not carried out. No range.			Sept. 22	Sept. 23	5 horses.
											do 22	do 23	A good battalion, well kept up to their work; duties satisfactorily carried out; a credit to the County of Huron as well as to Lt-Col. Ross & his officers.
