

Street; and the Commissariat Buildings, Place d'Armes; several buildings outside the walls; the Fuel Yard, St. Rochs, and lands on the St. Louis and St. John's roads.

The land given over at Quebec, amounts to A340. 2r. 13p.; A213. 2r. 29p. of this is freehold; the balance of A126. 3r. 24p. is leasehold, on a 99 years' lease from the Ursuline Nuns, and those of the Hotel Dieu. The latter being the exercising ground, better known as the Plains of Abraham, and the Nos. 3 and 4 Tower Fields. A Military Reserve, at the Jacques Cartier River, consisting of A38. 0r. 2p., was also handed over.

On the above lands, there are now 33 tenants, paying an aggregate yearly rental of \$2,485.15. For the leasehold property, this Department is now liable to an annual charge of \$551.20.

At Levis, only two of the forts have been handed over: Nos. 2 and 3. No. 1 fort being in an unfinished state, the Royal Engineer Department have retained possession of it until it has been completed. The forts are at present unarmed, but suitable armament is, I understand, to be sent from England for them. The lands given over at this place have an area of A1,252. 2r. 37p., and are at present leased to twelve tenants, who pay an annual rental of \$529.10.

Naval Reserves.

In addition to the above lands, I received over at the same time, for the Dominion Government, the following lands in Ontario, forming part of the reserves kept for naval purposes.

With respect to the above lands, the Royal Engineer Department in handing them over could give me no further information respecting them than is conveyed by the above statement, and a few plans accompanying it.

Reserve Stores.

I also received over at Quebec, from the Control Department, after the transfer of the forts, armament, and lands had been effected, the remaining portion of the free gift and reserve stores, under the previous arrangement entered into with the Imperial Government. These consist of a variety of articles, such as ordnance, ordnance stores, shot, shell, powder, harness, saddlery, &c., &c., too numerous to mention in detail in a report like this. I also received over, the last of the 18 Pr. Batteries complete with its equipment. With the Laboratory Buildings, situated in the Cove Fields, just outside the St. Louis Gate, I received over the whole of the Laboratory stores then in Royal Artillery charge. These were a free gift to the Dominion Government, are of considerable value, and have since then been given over to the charge of the Commandant of the Quebec School of Gunnery. He has also received one complete set of Artillery patterns, those recently in Royal Artillery charge. Another set, belonging to the Military Store Office, remains now in charge of the district storekeeper at Quebec, both sets being included in the free gift stores.

In conclusion, I must again express my acknowledgements to the Officers of the Royal Engineer and Control Departments, for great kindness and courtesy extended to me at all times in the discharge of my duties. Every facility that could be afforded me for their proper performance, was ever most cheerfully accorded, and much valuable information was given to me in matters connected with the lands and stores.

Director of Stores and Keeper of Militia Properties.
