							F. of M. Batt.	F. of M. Comp.			
I was informed that rations were supplied through the Officer Commanding, but do not know the cost.	Very Good.	Nil.	Nil.	Good Order.	The Field Battery drill was bad, owing probably to there being many recruits, and to the greater part of the time being occupied in marching round the Island of Orleans, embarking and disembarking. Disabled ordnance exercise was well done. Questions on ammunition fairly answered by non-com. officers.	Yes.		20th September, 1873.	20th September, 1873.	Officers understand their work, especially Lt. Lindsay. Lt. Gauthier absent on sick leave. Valuable experience was no doubt gained by Major Baby commanding, in moving the battery with camp equipment and complete, and providing forage and rations with out assistance from supply department. His arrangements reflect great credit upon him.	
Nil.	Very Good.	Nil.	Nil.	Clothing in good order. No Guns or Harness supplied.	Foot drill and riding drill, single and double rides. No guns having been supplied, no other nature of exercise was possible. Foot drill and riding drill very good.	Yes.		24th September, 1873.	24th September, 1873.	The physique and intelligence of this Corps are of superior order. I would recommend them to be armed with 4 howitzers, taken from batteries supplied with M. L. R. Guns.	
					Field Gun practice was carried on the day before my arrival. Fuzes reported irregular, this may be due to boring and setting.
