Subject: environmental assessment process

Hello,

As a proud Canadian I'm proud that we are reviewing the environmental assessment process, as it has taken a back seat under the conservative government. Business, corporations and mis-lead opportunities were being used to dismantle the very laws that are in place to protect our land.

Opportunities must be properly weighed, not just buy those whose pockets will be filled, but by the local communities, the wildlife and fish habitats that will be effected.

It is very important that we do not give up long term rights to our land and the process of what may or may not be down on our land.

Thank you for taking my thoughts into consideration.

Regards,

Brian
