National Energy Board of Canada
NRCan.NEBModernization-ModernisationONE.RNCan@Canada.ca

To Whom it May Concern:

Re: National Energy Board Modernization - Draft Terms of Reference for Expert Panel

Steelhead LNG is a Vancouver-based energy company focused on liquefied natural gas (LNG) project development in British Columbia. From project concept to product delivery, we are committed to responsibly creating and delivering value for the First Nations, communities, suppliers and customers with which we work.

We are supportive of the Federal Government review of the National Energy Board by an Expert Panel. We feel that the draft terms of reference for the Panel, including the proposed scope of review and process, will allow for a comprehensive review of the *National Energy Board Act*.

We look forward to actively participating in the review process and will provide comments as part of the public consultation.

Sincerely,
Steelhead LNG Corp.
